SPECIAL NEEDS POLICY FOR ADMISSIONS at TESIS Dorado

The goal at TESIS Dorado is to encourage and assist all students to be successful and to benefit fully from the school's educational program. However the school cannot be all things to all people. There will be student applicants whose needs the school will not be able to serve well.

The School has limited resources for students with special needs but it does all that is reasonable to accommodate the needs of applicants who have differences for which, with reasonable adjustments, the school can cater to adequately. TESIS Dorado does not offer a full continuum of special education programs. Admission and permanence in the school is contingent upon a match between the student's and the family's needs and the level of services available in the school or contracted by parents at their individual expense. For that reason, the admission and permanence in the school of any special needs student is determined on a case-by-case basis using multiple sources of information such as school records, school and professional evaluations and interviews with students, parents and teachers.

It is very important that parents of students who have received special services or who believe they may need support, inform the Admissions Office when the application is submitted. Specific information relating to a child in need of special services will be considered by the administrators and special services personnel who make determinations about admissions. We will always try to do what in our professional opinion we determine to be best for the child given the resources available at TESIS Dorado.

In order to determine whether or not TESIS Dorado is the best match for your child's educational program, we ask your cooperation in responding to the following questions:

Have you ever applied to TESIS Dorado? No ___ Yes ___ When? _____
Has your child ever been retained or advanced at a grade level? No ___ Yes ___

If yes, please explain _____

Has your child been identified and or diagnosed as having learning differences? No ___ Yes ___

If yes, please explain _____

Has your child ever required special needs services for any reason? No ___ Yes ___
If yes, please attach a detailed description of these services.

Has your child been tested by a learning specialist? No ___ Yes ___
(Speech, Occupational or Educational Therapist)
If yes, please include report/s.

Has your child had any medical conditions that might have affected his/her learning and/or physical condition which might require special attention to ensure his/her full participation in the day to day and in the special activities of the school? No ___ Yes ___
If yes, please explain _____

We ask that parents give us the most accurate, complete information possible concerning the student's health and learning abilities/disabilities so that we can make an appropriate placement decision. We at TESIS Dorado fully understand the importance of supporting individual differences and believe that this is possible when we work as team –parents-principals-teachers-counselors –

with the child's best interest as our common goal.

Tell us about your child: please use this space to provide details regarding personality, attitude towards school, special gifts, talents, interests, or any other information that you believe will assist us in our admissions decision.

Please identify for us any pre-existing conditions in the applicant which may require special individualized attention such as a physical handicap, diabetes, hypoglycemia, food allergy, etc.

All admissions decisions and grade placement are conditional. A student may be asked to leave if accurate, complete information is not provided in a timely manner.

Parent/Guardian Signature _____ Date _____
